October 28, 2013

Central Nine Career Center Board Members:

This is a letter to request your consideration to implement a balance calendar beginning with the 2014-2015 school year.

Currently six out of nine member high schools utilize a balanced calendar for their school year. Utilizing the 2013 official enrollment figures, this accounts for approximately 76% of all students attending Central Nine. With the transition to a balanced calendar many more students who attend Central Nine would have their career center schedules aligned with the high school they attend. We feel that this alignment would be very positive for our students and would promote more consistency amongst the cooperating school systems and Central Nine.

Thank you for your time and consideration on this topic regarding school calendars.

Sincerely,

Patrick Spray  
Superintendent

cc: Nicole Otte, Interim Director
