

# Adult Education Division

Prepared by: Michelle Davis, Adult Education Director

## This Month's Highlights

The Central Nine Career Center Adult Education Division is in full swing after having a week off for Spring Break. Another GED class is being added on the Central Nine campus to help meet the demands of the community. GED/ESL classes are scheduled to continue through May. And, Central Nine will be able to continue at least one GED and one ESL class throughout the summer months due to our increase of funding from the state.

Six of our GED/ESL staff members are taking part in the annual IAACE (Indiana Association of Adult and Continuing Education) conference that is being held at the end of this month in French Lick, Indiana. They will be attending several Professional development sessions.

On the Continuing Education side of things, the Welding class has begun its second session of the semester and has 13 adult welders enrolled. The 2<sup>nd</sup> CNA session is going strong with adult students preparing for their state tests. Fire Science and EMT classes are also in full swing, with the classes also meeting one Saturday every month.

We are holding our second faculty meeting of the year on April 12, which Cory Mahorn from DWD is coming to provide valuable insight on the new reporting guidelines. This will ensure that we are reporting to the state correctly to maximize our funding.

The Adult Education Division staff members having been working diligently to learn, understand, and encompass the needs of the businesses and community members
