

Adult Education Division

Prepared by: Sherene Donaldson, Curriculum Director

This Month's Highlights

The **Adult Basic and Continuing Education** Program provided or will provide services for over 936 students since July 1, 2012! These services have generated over \$83,867 in revenue. Central Nine Career Center provides the residents of our district with services related to GED Testing, GED/ESL classes, GED Practice Testing, Proctoring Services, NCCT Testing, and Adult Continuing Education on-campus and online courses.

Since Central Nine was approved to add the Medical Coder Certification Programs, we will be able to submit a micro-grant for funds to develop the program. Central Nine will submit an application for Innovation Grant funding to help develop the Medical Coder Certification Program by Spring 2013.

Since October 1, 2012, Central Nine's Adult Basic Education Program has provided over 170 new adult learners with services related to GED Testing, GED/ESL classes, and GED Practice Testing. The Adult Continuing Education Program has over 35 students enrolled in the Certified Nurse Aide Training and Welding Technology Programs which began in October. These services have generated over \$15,000 in revenue since October 1st.

The **Central Nine Adult Education Division** is pleased to report that GED preparation/ESL classes may soon be offered on the near south side of Indianapolis. These new courses will provide services for the adult learners in the southern regions of Marion County. We are looking forward to developing new partnerships with community leaders in Indianapolis to provide needed services for the residents within these communities.
