

Adult Education Division

Prepared by: Michelle Davis, Adult Education Director

This Month's Highlights

The Central Nine Career Center Adult Education Division is preparing for our Summer schedule. Only four of the GED/ESL classes will be stopping for June and July. Six off campus classes will continue as normal and six more classes that have been off campus will be moving to the Central Nine Career Center campus for the summer. We are looking forward to having the majority of our Adult Learners on campus!

Six GED/ESL staff members participated in the annual IAACE (Indiana Association of Adult and Continuing Education) conference that was held at the end of April in French Lick, Indiana. It was a great learning experience. Each staff member attended 3 separate conference sessions and participated in a team building activity.

On the Continuing Education side of things, the Welding class is preparing for their certification tests that is provided by AWS(American Welding Society). We are beginning our 3rd CNA session for Spring 2013 session. EMT will be holding their State Practicals at Central Nine on Saturday, May 18. The WorkOne offices in Johnson, Marion and Morgan county continue to work with Central Nine on sending Adult learners to us for the different certifications that we offer.

Adult Education has had two separate types of training given by the DWD state department. They have come to Central Nine and held two different training sessions in regards to reporting data to the state correctly to ensure that Central Nine is maximizing our funding. Our staff has benefitted greatly from these individualized training sessions.

The next Adult Education Faculty meeting is scheduled for Friday, May 31. Another upcoming event is the GED graduation that is scheduled for June 19, 2013.

The Adult Education Division staff members having been working diligently to learn, understand, and encompass the needs of the businesses and community members.
