

Adult Education Division

Prepared by: Michelle Davis, Adult Education Director

This Month's Highlights

The Central Nine Career Center Adult Education Division has had six additional classes running this summer here on the Central Nine campus. The adult learners have embraced and taken advantage of the computer lab that the Central Nine campus has available to use.

Seven GED/ESL staff members attended an ICE (Indiana Career Explorer) training that our Lifecoach set up for our staff. All of our ESL Instructional Aides attended an exceptional training session in June at Blue River Vocational Center. It was a great learning experience and a great opportunity to partner with Blue River Vocational Center that benefitted all. In July, Central Nine is hosting an Inters training for all of the Region 5 consortium members.

Central Nine Adult Education Division is creating our own website and hope to have it up and running by August. Also, our Adult Education Lifecoach is creating a monthly newsletter that will provide needed information for our Adult learners. It will contain vital information with opportunities that not only Central Nine but our community offers to its members.

The GED graduation was a huge success! 82 GED students graduated with over 400 people in attendance. A representative from Joe Donnelly's office spoke to the audience along with an actual GED graduate. She spoke about her struggles that she went through to achieve her GED. It was a very inspirational story.

The Adult Education Division staff members are looking forward to beginning the Fall classes. Our next faculty meeting is scheduled for August 9th, 2013.
