

Adult Education Division

Prepared by: Michelle Davis, Adult Education Director

This Month's Highlights

The Central Nine Career Center Adult Education division has been busy this past month transitioning to our new location on campus. The entire Adult Education staff will be working in the West side of building A, utilizing our own entrance (A3) for the adult learners. The evening classes will continue to maximize the entire Central Nine Campus, while the Adult Education office staff will be centrally located in one office.

Indiana Department of Workforce Development hosted a Summer Institute in Indianapolis on August 1 and 2 for GED and ESL instructors. Five of our staff members took advantage of the professional development opportunity and participated in the Institute. The Summer Institute focused on Going Above and Beyond. Roxanne Bauer, a Central Nine ESL and GED instructor, gave a fabulous presentation during the conference!

Central Nine Adult Education Division has been working diligently on creating our own website. The address to the website is: <http://centralnineadulthood.org/>. It is live now and will be a work in progress to ensure the website's accuracy. The website will be linked to the original: www.central9.k12.in.us for convenience.

Also, the ABE Adult Education division has partnered with "The Hope Center" on Main Street in Greenwood to provide a location for our day classes. They are allowing C9 full use of their facility on Monday and Thursdays. We are excited about this partnership!

Overall, the Adult Education at Central Nine is excited about our new offices and looking forward to a great 2013-14 year.
