VU Recruitment Partner – Working out details of position/grant

Professional Development:

Mr. Jacobs led a New Teacher Orientation and Mr. Courtney led an Instructional Assistant/Substitute workshop on July 24.

Lynda Jackson led our Technology Centers that Work Site Development Workshop on July 28-29. She assisted the teachers in identifying 6 areas of focus from the Technical Assistance Visit Report that will guide our improvement areas over the next couple of years. Teachers rated their top three choices from the six, and will be placed on committees to address these items. The six areas are as follows:

- Boot Camp
- Increase Industry Certifications/Engagement
- Marketing
- PBIS (Positive Behavior Instructional Supports)
- Senior Projects
- Technology Plan

CTE Innovations Grant

Sending schools will be made aware of the process for applying for and reimbursement of the CTE Innovations grant.

Information was shared with Superintendents at Monday's meeting, and after feedback, will be distributed electronically to schools.

Principal

Students:

Students are getting settled in here at C9. Had convocation with all the students Monday of this week. Went very well! Lots of positive energy, culture, and maturity in the building among both sessions.

Teachers:

Working hard, getting back into the swing of things! New teachers are doing great so far with students. Two day in-service July 28th, and 29th went very well with teachers and TCTW! Positive outcome!!!

Indiana State University Update:

I met with my new supervisor, Dr. Tom Whitaker, as well as my regional cohort group two weeks ago at ISU.

Student Services

Guidance has been very busy dealing with new enrollments, schedule changes, and questions communicated by counselors, parents, and students. Students overall seem to be having a positive beginning to the new school year. Several schools have already begun to schedule tours and student shadowing. It is now coming time to choose new Student Ambassadors to help assist in these areas. Our Career Pathway Specialist (and new Student Services Coordinator), Karin Graves, assisted in these duties.
