

Indiana CTE Course Inventory Changes

Notification of Changes to Indiana Secondary Career and Technical Education (CTE) Courses

Indiana state law (IC 20-37-2) requires schools and/or Area Career and Technical Education Districts to notify the state whenever a Career and Technical Education (CTE) course is added or removed from the high school curriculum.

In Indiana, CTE courses may be offered at a comprehensive high school or in a separate building or buildings organized under an Area Career and Technical Education District. The governing body of the comprehensive school (typically a school board) or of the CTE District (typically called the district management or governing board) may include CTE courses in the school's curriculum as long as:

- The CTE course is listed in Indiana's State-Approved Course Titles and Descriptions:

<http://www.doe.in.gov/achievement/ccr/course-titles-and-descriptions>

In cases where the school corporation is a member of an Area Career and Technical Education District (CTE):

- The management/governing board of the Area CTE District must approve the course offering.
- The Indiana Department of Education (IDOE) and the Indiana Department of Workforce Development (IDWD) must be notified, by submission of the attached form, whenever a new course is added or removed from the course offerings of the school or Area CTE District.

Process for local approval of NEW CTE courses:

1. Identify need, interest, and support.
 - Determine if the CTE course is or is not currently on your school or CTE District's approved course list, which is available through the InTERS system. If the course is on the school's program inventory, new course approval and notification is not needed.
 - It is recommended that schools create an advisory committee for the program area and determine the need for the course(s) including data and/or evidence of business/industry needs, student interest, community support, financial resources available to support the course, and sending school support if the course is to be added at a career center.
2. Secure local approval.
 - For courses to be offered at a comprehensive high school:
 - If the school is a member of an Area CTE District, approval of the Area CTE District governing board is required.
 - If the school is NOT a member of an Area CTE District, the school's local governing board is the approving agency.
 - For courses to be offered at the Area CTE District's career center, approval of the Area CTE District governing board is required.
3. Complete and the "New Secondary Career and Technical Education Course" form attached.
4. Notify the Indiana Department of Education and Department of Workforce Development whenever new courses are added or current course are removed by submitting copies of this form to the contacts below. **Submit notification by July 1 in order to have new course reflected on the school's program inventory for fall semester.**
