

Central Nine Career Center & City of Greenwood  
Trail Connection

Greenwood Redevelopment Commission met on 04/12/16 and granted funding approval to connect the walking trail between Worthsville Road and Central Nine Career Center's walking path (see map with proposed connection on reverse). There is no cost to Central Nine for this connector.

Original intent for tonight's meeting was as an item of information. However, The City of Greenwood may be able to utilize their current contractor for the Worthsville Road project with an earlier approval from Central Nine.

Anticipated Worthsville Road completion Date: July 2016

Details of trail connection on C9 Property:

- Apx. 120 feet length X 10 ft. trail width
- 4 inch layer of #53 stone (compacted) base
- 275 lbs. per sy (2.5 inches) of Type A intermediate Hot Mix Asphalt (HMA)
- 165 lbs. per sy (1.5 inches) of Type A surface HMA
- Contractor will excavate trail for base, install asphalt, and grade, seed, and mulch disturbed areas adjacent to trail (excess soil removed)

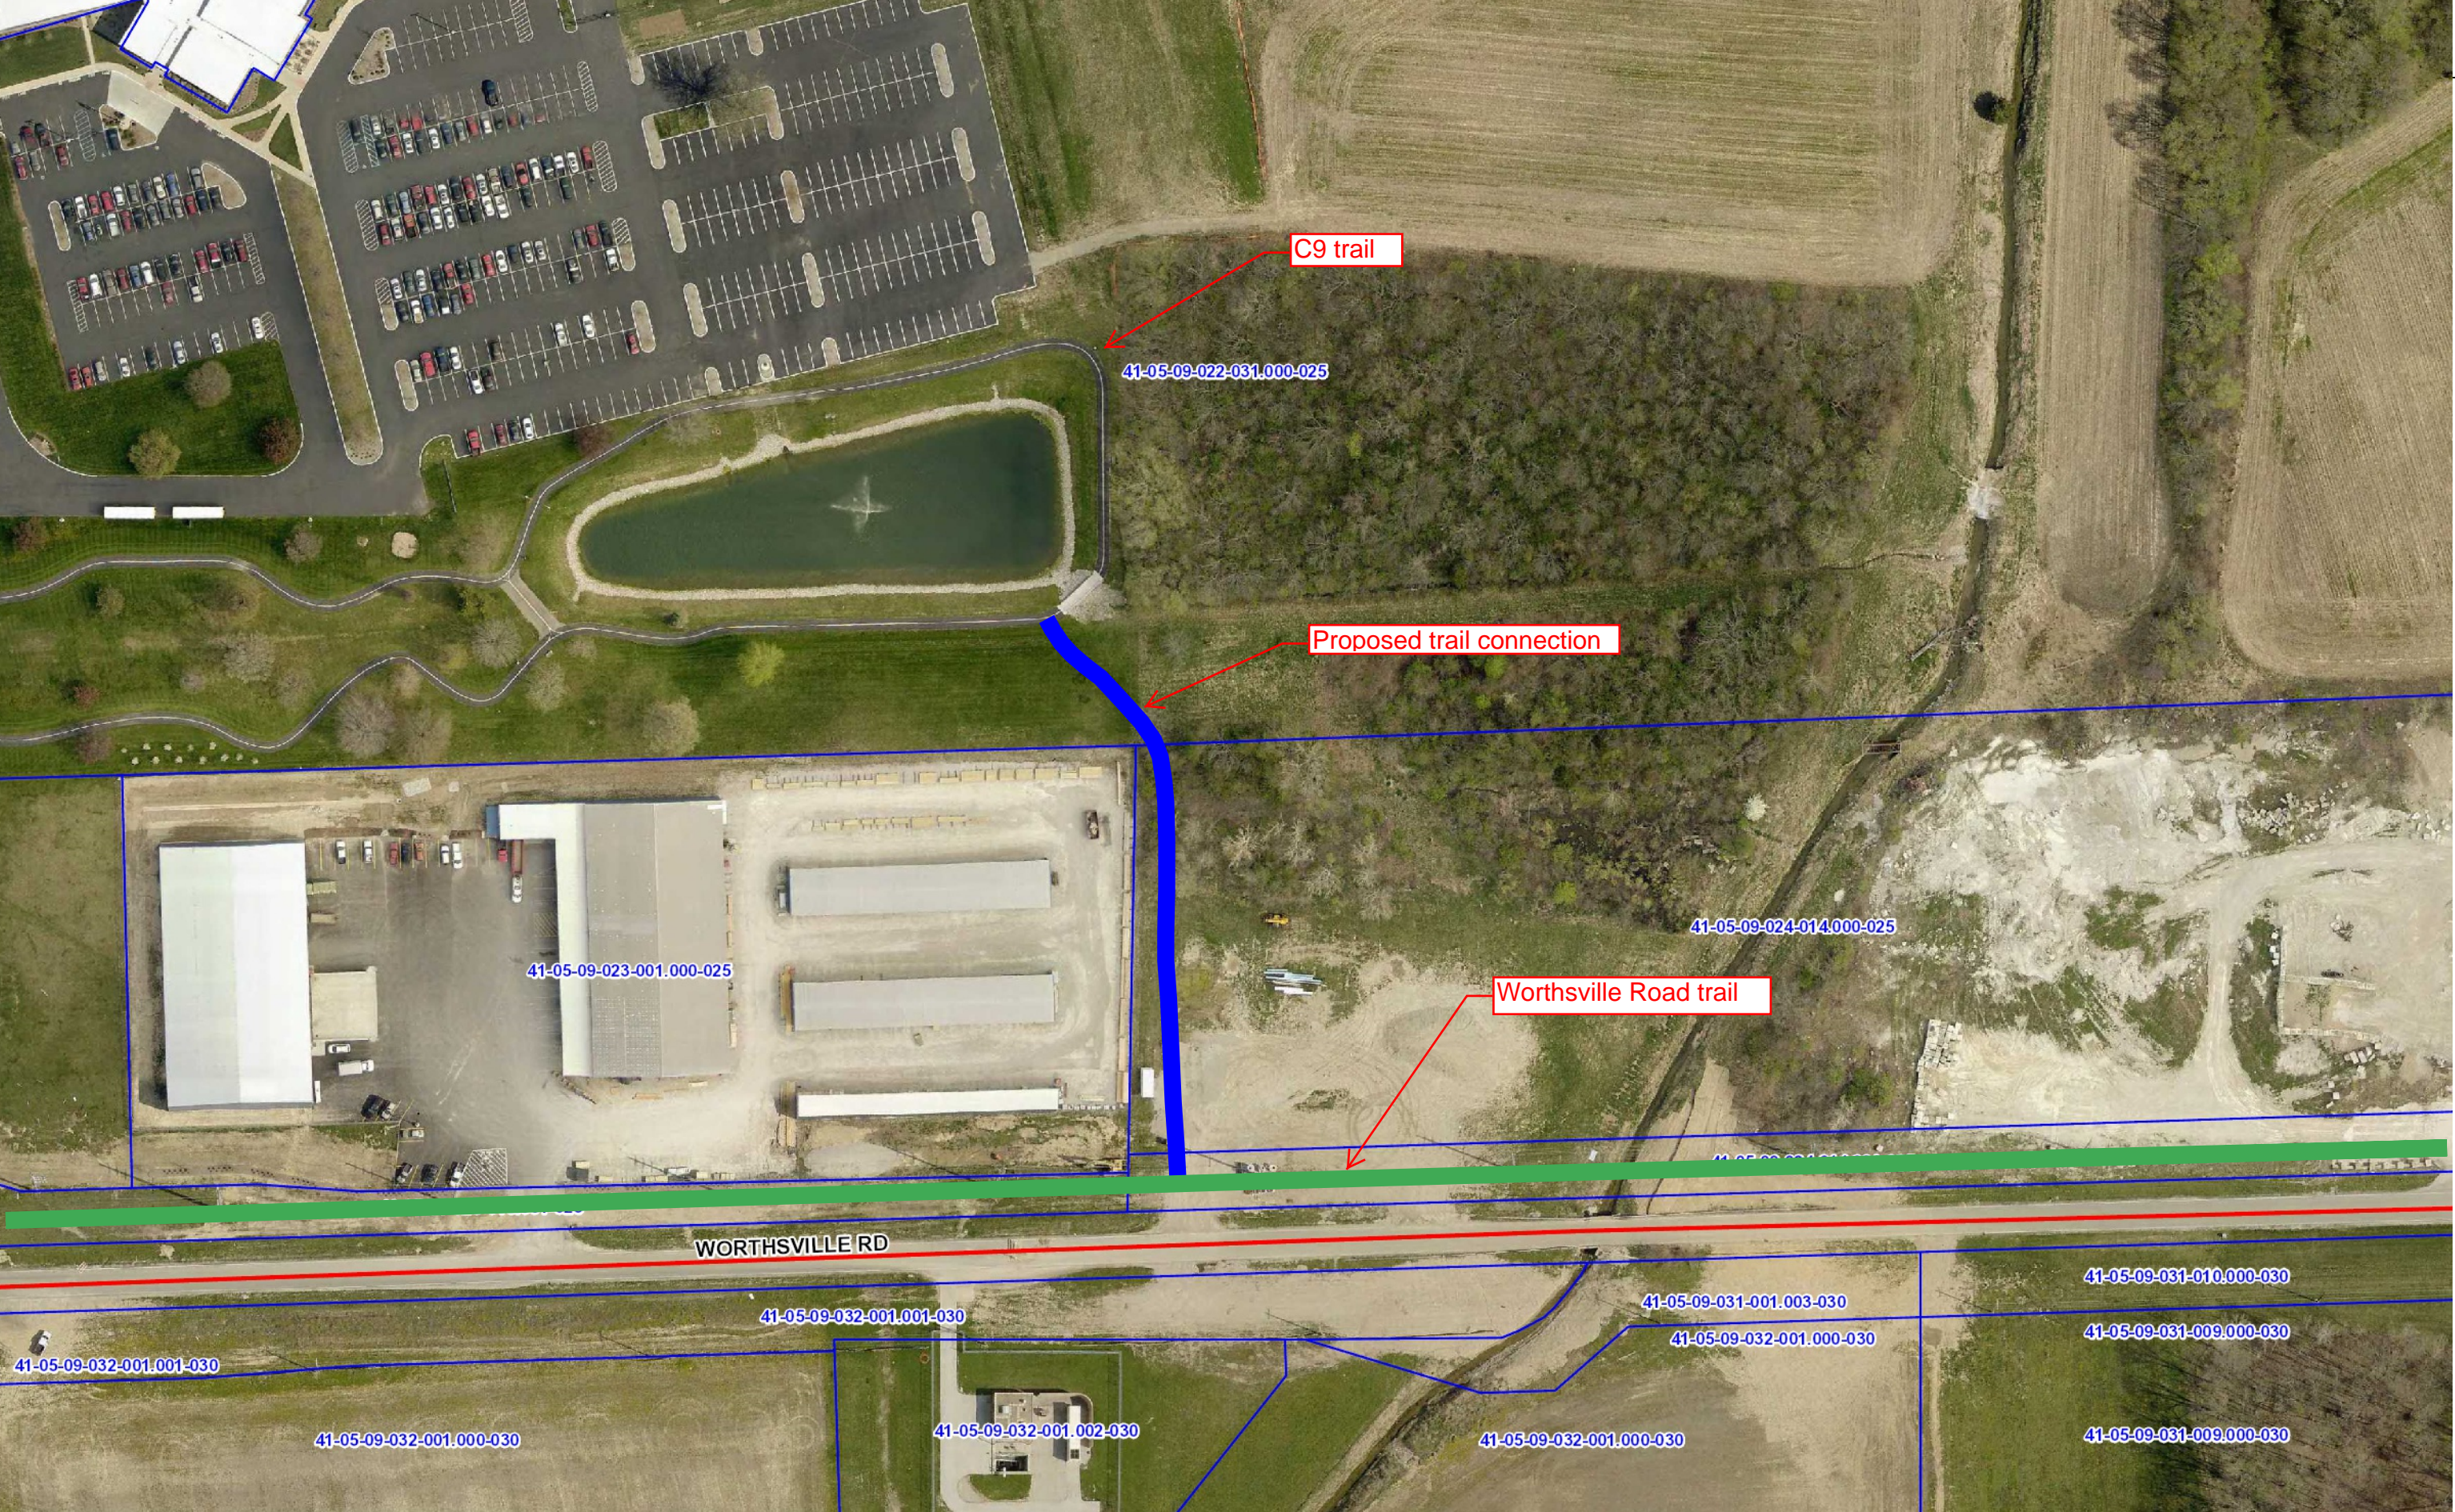

Next Steps:

1. Walk property for potential trail path; set stakes
  - a. City of Greenwood - City Engineer, Inspection Engineer, Contractor
  - b. Central Nine – Facilities Supervisor, Director/Assistant Director
2. Locate utilities
3. Right of Entry Signed with City Attorney
  - a. Would need Board Approval to have the Director authorized to sign this document
4. Work could begin as early as May-Early June if current contractor is approved

Benefits:

- Increased Exposure of C9 Campus to Community
- Community Benefit of additional Walking Trails/Park Setting
- Connection to Residential Communities off of Worthsville Road
