All content in this document is subject to change based upon further Executive Orders of the Governor, directives from the Indiana Department of Health, or guidance from other local, state, or federal public health organizations.

The following Health and Safety Protocols are intended to be the best possible methods of protecting all students, staff, and administrators. MASKS ON CAMPUS AND SOCIAL DISTANCING

WILL MASKS BE REQUIRED?

YES, MASKS ARE REQUIRED IN MOST SITUATIONS.

Faculty, staff, and students will wear facial coverings while inside campus buildings except when social distancing is maintained.

Masks will be required to cover both the nose and mouth simultaneously.

I Don't Want My Child Wearing a Mask.

We know that there are strong opinions about the use of masks. The Indiana State Department of Health cited a 40-60% reduction in COVID-19 transmission when masks are used by all, which is why we are requiring them for certain portions of the day.

This is especially important since some carriers of COVID-19 may not have any symptoms. Children, despite being generally less affected by COVID-19, expose school staff and adults at home who may be more at risk.

WILL SOCIAL DISTANCING BE REQUIRED?

Central Nine will practice social distancing when possible. Due to the size of our student body and our facilities, it will not be possible at all times. In classroom and laboratory spaces, student seating may be arranged to face in the same direction, when possible, and spaced as far apart as possible.
