

## APRIL 2025 HIGH SCHOOL BOARD REPORT

### STAFF AND STUDENT SERVICES

#### Staffing

We are seeking a Criminal Justice Instructor and an Instructional Assistant for next school year.

#### Professional Development

In addition to our continued focus on mental health, we had recent Professional Learning sessions on special education support, and how to improve parental communication. Our next session will dive deeper into special education accommodations for dual credits and certifications.

#### Registration/Enrollment

Mrs. Carpenter is currently working with counselors on course availability and requirements to prepare master enrollments. She is also meeting with instructors to determine placement for year 2 students.

#### Governor's Work Ethic Certification

Students involved in the GWEC took part in mock interviews last month. The mock interview is a required part of the program along with 98% attendance, community service hours, 3.0 GPA, and no discipline referrals.

#### Recruitment

Mrs. Aubrei Teter recently presented a Central Nine overview to students at Custer Baker Intermediate. Preparations are underway for Nineovations, our middle school summer camp. Registration will open soon and the event will take place in June.

#### Evaluation

Joe Preda and Mike Quaranta will wrap up observations and prepare summative evaluations this month.
