

AUGUST 2025 HIGH SCHOOL BOARD REPORT

STAFF AND STUDENT SERVICES

Staffing

We are fully staffed!

Opening Days

We've had a smooth start to the school year! We had every school in attendance beginning August 6. Student Orientation took place on Monday, August 11, in which we discussed school safety, discipline, parking, and introduced key office staff members and how they can be of assistance.

Professional Learning

Our Professional Learning session this month focuses on how to make a strong impact during the Meet the Instructor Night presentations. We also reviewed successful parent communication and using QR codes and looping presentations to present information during the open house portions of the night.

Student Services

Student Services staff prepared for enrollment by updating student schedules and class rosters and organizing materials for the Governor's Work Ethic Certificate, dual credit opportunities, and opening professional development meetings. Ongoing communication with students, parents, and partner high schools has helped address questions and ensure a smooth start to the school year.

Evaluation

Instructors were notified of their evaluator for the year. Mrs. Michelle Augustine has begun coaching sessions with teachers in their first five years at Central Nine. Mr. Joe Preda and Mr. Mike Quaranta will begin observations after Labor Day.
