

NOVEMBER 2025 HIGH SCHOOL BOARD REPORT

STAFF AND STUDENT SERVICES

Staffing

We are fully staffed!

Professional Learning

In October, Professional Learning focused on human development and how incentives are a huge component of classroom management. Next month's Professional Learning will expand upon this topic, focusing on barriers, successes, and how to fund/support a motivating incentive program.

Student Tours

Sophomore Tours are taking place during both sessions on November 4th, 13th, and 21st. These open house style tours allow for prospective students to visit classrooms and labs to learn about Central Nine programming. Over 1,100 prospective students are scheduled to attend.

Student Services Update

Partner school presentations were launched with Mrs. Carpenter and Mrs. Teter visiting local high schools to highlight Central Nine program opportunities and to promote Central Nine Open House and Open House tours. Mrs. Teter continues to offer a résumé workshop to support career readiness and professional development.

Evaluation

Mr. Joe Preda and Mr. Mike Quaranta are working through first rounds of observations.
